Champoluc, with the neighbors Gressoney and Alagna, are small alpine villages with the charm of old traditions, combined with an extremely well developed MTB system. More than 50 km of prepared trails and a well developed lift system goes from Champoluc in the west to Gressoney in the middle and to Alagna to the east, making it possible to ride up- and downhill the whole Monterosa-ski system, for all levels of bikers.

Family managed hotels and restaurants with genuine Italian food are spread out in the village centers as well as on the slopes.

We have long personal experience of this place and we will help you tailor your travel exactly as you wish.
